

Amaze yourself.

Amaze the world.

Software Accessibility Intern

Job Summary

Are you passionate about making the world a better place? Apple's Accessibility Software Engineering Team is looking for talented Software Engineering Interns who want to work with and learn from some of the most accomplished Accessibility minds in the software industry. Our team is passionate about ensuring that people with disabilities can enjoy and benefit from Apple products. As an Intern on our team, you would focus on a tangible R&D project related to accessibility, and you would be immersed in the day-to-day life of building software products at Apple.

Desirable Qualifications:

- Real passion for delivering high quality software
- Strong coder (ideally Objective-C or Swift, or ability to learn based on experience coding in another language)
- Ability to learn quickly and grapple with complex code
- Ability to communicate clearly and effectively

Description

Apple's Accessibility Software Engineering Team delivers innovative and award winning products to empower people with disabilities, including VoiceOver, Switch Control, Guided Access, Zoom, Live Listen, and many more. Come be a part of our mission.

Education

Pursuing BS in Computer Science or equivalent.

Apple is an Equal Employment Opportunity Employer that is committed to inclusion and diversity. We also take affirmative action to offer employment and advancement opportunities to all applicants, including minorities, women, protected veterans, and individuals with disabilities.
